PROFESSIONAL SUMMARY

Mid-level Software Engineer with over 4 years of experience specializing in building and maintaining robust enterprise applications, with a focus on Java legacy systems and modernization. Proven track record in the full Software Development Lifecycle (SDLC), from designing RESTful APIs to optimizing high-volume batch processing for critical government healthcare systems. Experienced in production observability, defect remediation, and technical mentorship.

TECHNICAL SKILLS

- Languages:** Java (Core & Enterprise), SQL (Db2), JavaScript, Python, HTML/CSS
- Backend:** RESTful API Design, Batch Processing, Spring, Microservices Concepts
- Tools:** Git, Jira, IntelliJ IDE, Log Analysis Tools, API Management (APIM)
- Core Skills:** System Analysis, Code Reviews, Legacy System Maintenance, Mentoring

PROFESSIONAL EXPERIENCE

RedMane Technology

June 2021 – Present

Software Engineer

Key Focus: South Dakota Medicaid Eligibility & Enrollment System

- Engineered end-to-end features for critical state-level Medicaid systems, ensuring high availability and compliance with regulatory standards.
- Designed and implemented secure RESTful APIs to facilitate seamless data integration between legacy backend systems and modern web interfaces.
- Optimized complex batch processing jobs to handle high-volume record updates, significantly improving data throughput and system efficiency.

System Reliability & Observability

- Spearheaded application maintenance and production support, utilizing API Management (APIM) and log analysis tools to proactively identify bottlenecks.
- Diagnosed and remediated critical production defects, ensuring data integrity across online and batch processes.

Leadership & Collaboration (2023 – Present)

- Assigned as a technical mentor for junior developers, facilitating onboarding and fostering a culture of continuous knowledge sharing.
- Conducted rigorous code reviews to enforce design patterns, clean code principles, and maintainability standards.

DePaul University - Internship

Jan 2020 – June 2020

Web Developer (Contract/Intern)

- Developed responsive, user-friendly websites using JavaScript, CSS, and Content Management Systems (WordPress) for external clients.
- Operated within an Agile framework, managing sprint artifacts and conducting sprint retrospectives to improve team velocity.

EDUCATION

DePaul University

Graduated: 2020

Bachelor of Science in Information Technology
